Dear Sir/Madam,

I am writing to apply for the Master program for the 2022-2023 academic year. I graduated from ….. University in Computer Sciences last year. Now, I want to contribute to the field of Computer Sciences with your program which is called Computer and Administrative Sciences.

One of the main reasons I would like to study abroad is that this program would enable me to study Computer Science courses in a different country; in other words to say I can acquire different perspectives about comparison of industrial and marketing opportunities in my country and in a foreign countery which is so valuable for my future studies.

Another reason is to follow modern techniques of Computer Sciences by immersing myself in the Daily life of the country to achive an international and intercultural education especially in a non-English speaking country like Germany.

Living in Germany and studying in Munich Tehcnical University have benefits that I cannot achieve by a short visit alone. It will allow me to broaden my perspective and contribute to my self-improvement by expanding my knowledge and widening my experience in a variety of academic disciplines. Thank you for your consideration.

Best wishes,

Ad Soyad
